

# Distribution Sites that Sell to the Public

Mothers' Milk Bank  
Colorado Based. Nationwide Impact.

To help expand access to pasteurized donor human milk, Mothers' Milk Bank proudly partners with Distribution Sites throughout our community. These sites sell Mothers' Milk Bank milk directly to the public and are a great resource for families outside of the hospital.

## ***When purchasing milk from any of these organizations, please keep these things in mind:***

- ▶ Before arriving to purchase milk, you need to call the facility to inquire about milk availability. We cannot guarantee availability at any of these sites.
- ▶ Some facilities require you to make an appointment before purchasing milk. Please be mindful of their staff and other patients and be sure to call first.
- ▶ **When you call, confirm the price of the milk with the facility.** *Facilities determine their own pricing, taking into account their own operating costs.*
- ▶ Please note that some facilities may have a maximum amount available for families to purchase.
- ▶ Most facilities only accept credit cards as a form of payment. It is helpful to have a couple of cards ready, if possible, as some facilities do not accept certain cards (e.g. American Express)

## DENVER METRO AREA
